

## What is the Advantage of the Bible Institute in Hungary?

- **Cost:** The average Christian college in the United States costs around \$30,000 per year, while the BI in Hungary costs only \$8,500. That is a savings of over \$21,000! Cost-friendly credits from the BI can later be transferred to Christian colleges and universities.
- **International Exposure:** Our students come from many different countries, including Hungary, Brazil, Romania, Ukraine, Poland, Serbia, Uganda, Germany, Canada, and the US. Studying at the BI in Hungary gives our students a chance to discover other cultures and make life-long friendships.
- **Life Change:** Imagine what one full year of Bible study and Christian fellowship can do! Not only do our students grow in their knowledge and desire for God's Word, but they are challenged in their spiritual growth and understanding of God's will.
- **Ministry Experience:** Every student has a weekend ministry, which allows him or her to discover and develop their spiritual gifts, as well as prepare for a lifetime of Christian service. Weekend ministries allow our students to take what they have learned in the classroom and put it into practice.

## What is the Cost?

We ask our students to pay in Hungarian Forints (HUF). The following costs are the forint values, at a conservative 200 HUF / \$1 USD exchange rate. The USD price may be slightly higher or lower, depending on the current exchange rate.

## Which schools will accept my credits?

Many of our international graduates are able to transfer their credits to a number of fine, accredited Christian colleges and universities in the United States, and throughout the world. This is possible because of the Bible Institute's excellent academic program and proven leadership development.

In general, any Christian college that accepts credits from Word of Life Bible Institute in the U.S. will accept ours as well. If WOL Hungary does not have a preexisting credit transfer agreement with the school you wish to attend, we can begin a conversation with that school upon your request. It is important to know, however, that each school reserves the right to make final decisions concerning issues of credit transfer.

When a student desires to transfer credits to a new school, our Academic Office will provide that school with the information needed to evaluate the WOL Hungary academic program. Our Academic Dean will be in correspondence with the school's registrar.

## Which schools have accepted your credits in the past?

## How many of my credits will transfer?

Each school makes their credit transfer decision based upon a number of factors. Students who attend our Bible Institute for one year can typically transfer one full year of credits, entering the school of their choice as a sophomore. Those who study with us for two years can typically enter their new school as a junior. Our Academic Office has credit transfer information on file for the schools who already accept our credits. Acceptance of your credits by secular schools will probably be significantly less. Upon request, we will send official transcripts of your grades to any school.
